## NECKLACE

### Make the Pendant

**1** On a comfortable length of thread, pick up six 8° bronze seed beads. Tie the 8°s into a circle. Sew through the first 8° picked up.

**2** Work a right-angle weave increase stitch with 8°s on each bead in step 1. The finished row will have 12 8°s on the outer edge. Step up to start the new row.

**3** Work right angle weave with 8°s. Increase on every other bead in step 2. The finished row will have 18 8°s. Step up to start the new row.

**4** Work right-angle weave with 8°s. Increase on every third 8° in step 3. The finished row will have 24 8°s. Step up to start the new row.

**5** Work right-angle weave on every 8° in step 4 with 11° bronze seed beads. The finished row will have 24 11° bronzes. Step up to start the new row.

**6** Repeat step 5.

**7** Center a 27mm rivoli in the beadwork.

**8** Sew a 11° bronze between each 11° bronze picked up in step 6. Pull snug. Repeat the thread path to reinforce and tighten.

### Make the Edge Trim

**9** Exiting the last row of 8°s (step 4), work clockwise to sew a 8° between each 8° on this row. Step up.

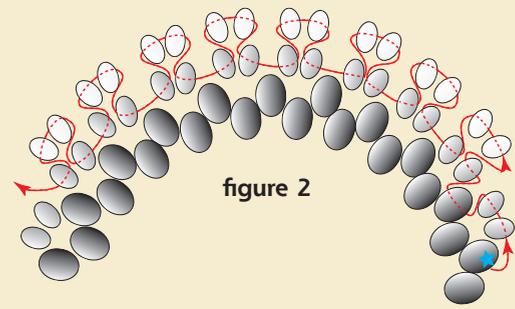

figure 2

**10** Exiting the first 8° in the last row, pick up two 11° dark gold seed beads, and sew through the next 8°. Repeat 11 times for a total of 12 11°s. Skip picking up one pair of 11° dark golds, and then continue picking up two 11° dark golds 10 times. You will have two 11° dark golds between each 8°, with matching gaps on each side of the pendant (**figure 1**).

### Add the Top Crown

**11** Exiting the 8°, sew back through the last two 11° dark golds picked up and the next 8°. Sew through the next 11° dark gold.

**12** Pick up two 11° dark golds. Sew through the next two 11° dark golds. Repeat seven times for a total of eight pairs of 11° dark golds. After the last pair, only sew through one 11° dark gold (**figure 2**).

For more stitch direction, follow the instructions in the Basics section for circular right-angle weave.
